- **Web & shared hosting** – websites and applications with control panel and SSL
- **VPS / cloud servers** – virtual servers with public IPv4 and IPv6

- **Colocation** – rack space, power and connectivity for customer equipment
- **Enterprise IP services** – static public IPs and server connectivity

- **Dedicated servers** – single-tenant physical servers

- **DNS & email** – authoritative DNS and business email for hosting customers

4. Network & infrastructure

All services are delivered from XFNPL-owned equipment at the Bhagalpur data centre. Internet connectivity is provided by Xpress Fiber Private Limited (AS150046), a licensed ISP (Licence No. DS-11/195/2022-DS-III, Category B, Bihar), over dedicated optical fibre, with an additional upstream planned for multihoming.

Internet → Upstream: Xpress Fiber Pvt. Ltd. (AS150046) [+ second upstream – planned] → XFNPL border/edge router (eBGP, XFNPL ASN) → Firewall / DDoS filtering → Core L3 switch → Service VLANs: Infrastructure · Core services (DNS, mail, NTP, monitoring) · Web hosting · VPS · Dedicated servers / colocation · Enterprise customers · NOC / management

5. Internet number resources (IRINN)

XFNPL has applied to IRINN (NIXI) for its own ASN, IPv4 /23 and IPv6 /48 under affiliate account **XFNPL-IND** (Application APPMPRQVI2S). The resources will be used exclusively on XFNPL's own infrastructure and the services it provides to its customers; they will not be sub-allocated or transferred to any other entity, and will be surrendered to IRINN if no longer required.

IPv4 /23 plan (512 addresses)	Infrastructure /27 · Core services /27 · Web hosting /26 · VPS /25 · Dedicated & colocation /25 · Enterprise customers /26 · Reserve /26
IPv6 /48 plan	/52 blocks for infrastructure, core services, web hosting, VPS (/64 per VM), dedicated & colocation (/56 per customer), enterprise (/56 per customer); remaining /52s reserved
Deployment timeline	1 month: 192 IPv4 (37.5%) · 6 months: 320 (62.5%) · 12 months: 448 (87.5%)
